FOR IMMEDIATE RELEASE

**HK SYSTEMS INTRODUCES THE
MB-100 MULTI-BELT SORTER**

MILWAUKEE, WISCONSIN, MARCH 11, 2010 – HK Systems, Inc., the leading automated material handling and supply chain software total solutions provider, today introduces the MB-100 Multi-Belt Sorter for mid-range sortation.

Specifically designed to handle and sort a variety of products into high-density after-sort divert lanes or workstations, MB-100 sortation rates can exceed 100 packages per minute for packages ranging from 6” to 36” in length and weighing up to 75 pounds. Modular in design, the 90 degree transfers and 30 degree diverts can be easily relocated when product sizes or field situations change allowing for enhanced space utilization, minimizing the footprint on your floor.

The MB-100 is best integrated into applications involving pre-sorting, value-added stations, kitting, pre-shipping and shipping, and is optimal for the Food & Beverage, Media, Retail, Postal, Wine and Spirits, Manufacturing and Pharmaceutical industries.

For more information regarding the MB-100 and/or HK Systems comprehensive offerings, contact Cheryl Falk at 262-860-6715 or visit www.hksystems.com.
